Wednesday, August 25, 1869.

Our NEED at this crisis, is cerminly not political agitation, secsional trife and partizan bitterness. Of these, we have had nough and to spare. But we do d a watchful spirit to secure nest officials in both State and lational Governments; tairness in levying the taxes, energy to collecting, and honesty and economy Ein thair disbursement. We need a more general diffusion of education among the masses to prevent demagogues from flour ishing at their expense, and a more thorough accountability of public servants to the people. We need less abuse, but more caution in selecting those who are to be set over us-less party consideration and more merit on the part of the candidate—less wire-pulling and freer and fairer expression of pub. lic sentiment in bringing him out; in fact more quiet men and tewer political aspirants.

COUNTY ELECTION.

The County meeting should be held at an early day to bominate a candidate for the Senate It the meeting is not large and well attended, it had better not assemble at all. The candidate of a few wire puller's will not be recognized This is an important matter, and proper steps should be taken at once, to see to it that every township is fully represented.

For the Times. CHEAP TUITION.

Man's education is an object of the ighest importance, both to the individual and to society in general. But its sequisition necessitates sacrifices merous and multiform, and selfdenials so painful, that men are led | Fire Companies No. 1 and 2, to consider the development and enriching of their minds not so much as great blessings, but rather as disagreeable and unavoidable duties .-Hence Church and State and Philanthrophists ever vied with each other to suggest a stimulus, and to hold out inducements to parents and students to perform their parts with greater alacrity, and to place the privilege of intellectual culture within reach of all worthy to enjoy it .-Some of these inducements are commendable, others bear a rather doubtful character. The most objectionsble of all is the consideration of cheapness cheapness of tuition.

It is not a favorable sign, when merchant attempts to undersell the market and falls below oost. Men are apt to lose their confidence in the quality of the articles, in the soundness of the vender's judgment, and in the honesty of his purposes. In the same manner, if a skillful mechanic were voluntarily to offer to work for less than fair wages, if farmers were to sell their produce below the market price, we could not regard that as benevolence and wis-

In the long catalogue of men whose philanthropy the Papal Church loves to commemorate, there is but one that in this way obtained the halo of a saint. INTERESTING BUT INCREDIBLE! The following item of news is

clipped from the Index and South West ern Baptist, Atlanta Ga.

"A hymn recently forced upon the Protestant congregations of Paussia, by the Minister of Ecclesiastical and Educational Affairs, contains, bes some worse things too grose to be reprinted, the following: "Almighty God, I am content to remain the dog I am. Lam a dog, a despicable dog. I am conscious of revelling in sin, and there is no infamy in which I do not indulge. My anger and quarrelling are like a dog's. My envy and hatred are like a dog's. My abuse and snappishness are like a dog's. My robbing and devouring are like a dog's. Nay, when I come to reflect upon it. I cannot but own that in very many things I have behaved worse than the dogs themselves."

DISSING AMONGST FRUIT TREES .-This subject is at length awakening attention, even in slow and staid old England, where it is so very hard to journals, a correspondent says that ond of the most successful strawberry growers of his time, the late Mr. Keen's Seedling, after a life-time of observation, had come to the conclusion that shallow digging was the absurd not "to let in the atmosphere" by deep digging.

We think everything should be planted as shallow as possible; but of the viola ion of an unfortunate the earth around and beneath the young white girl by two negroes near plant should be at least loose enough Front Royal, county town or court- for the roots to find their food with

> The amount of business transacted in the postoffice in New York may be judged by the fact that two windows are open for the sale of stamps in sums less than one dollar. The receipts at each of these windows average \$1,000 per day. The daily consump tion of s'amps at the office must be in all about \$50,000.

SPECIAL NOTICES.

A book by General Lee will awa-ken such special interest, that we are glad to call attention to it. The Uni-VERSITY PUBLISHING COMPANY of No. 4 Bond Street, New York, announce that they have now in press, and will issue in a few weeks, "Memoirs of the War," by Gen. Henry Lee, thoroughly revised and corrected by Gen. R. E. Lee who has added, also, an entirely new biography of his and personal materials never before used. It will be a large and bandsome octavo volume, illustrated by Cornwallis," and five original maps and plans. Our readers need not be told that this is a work of great interest and value. It is the standard history of military operations at the South during the revolutionary war, and as such is a book which every reading man should possess; but its interest and value are both greatly increased by Gen. Robert E. Lee's thorough revision and correction, and by the valuable biography of his father which he has written and added to it.

We are sure that this announce-ment, alose, is sufficient to give the book a very great sale, but when we add that Gen. Lee is personally interested in its publication, such a sale is made certain.

As we learn that the book is to be sold by canvassing agents only, those who desire to engage in its sale should make early application to the publish-

BALTIMORE ADVERTISEMENTS

THE BALTIMORE PARLOR HEATERS. COOKING STOVES,

COOKING RANGES. HOT-AIR FURVACES, &c. S. B. SEXTON'S CELEBRATED PATENT BALTIMORE PARLOR HEATERS AND GAS BURNERS,

for Anthracite or Bitumizous ceal, have been in successful operation for the last ten years, and have proved to be the best Fire-place Heaters manufactured and put in operation. They are getting to be generally used, often in the place of furnaces, for heating the lower and upper rooms in dweldings and offices. Two or three Stoves heating the largust dwellings, and besides, are quite ORNAMENTAL and ILLUMINATING, having all the beauty and cheerfulness of an open grate fire, but are more ECONOMCAL, CLEANER, and RADIATING ALARGER AMOUNT OF HEAT. We can refer to thousands of families who have them in u.e.

We manufacture our own COOKING: T. VES, and we guarantee them to be equal to any sold for baking and cooking. We have Stoves to take in long mood and with large ovens, and are superior Stoves to baking. We are getting out some new patterns of Cooking Stoves, that will burn Bituminous coal, hard coal, or wood. They will have a beautiful fibrish, and will stand among the No. I Cook Stoves. Our Cooking Stoves are Baltimore made, and we guarantee the plates. Our Cooking Ranges are pronounced the beet and cheapest in the market—Baking of all kinds can be done in our Ranges as quickly and equally as well as in a Brick oven. We will manufacture S. B. SEXTON'S new patent Hot-Air Furnaces, warranted to burn from 30 to 70 hours with once filling.

Thankful to our friends and the public for their past favors, we solicit a continuance of their pateronage.
